

What Makes Us Different

At AST, we take pride in our innovative and cost-saving solutions that have led to a 100% success rate on Oracle Applications projects — spread across Fortune 500 corporations and public sector organizations — that range from planning, assessment, implementation and migration to training and support.

Throughout our history we have delivered the highest quality of consulting services as a premier Oracle E-Business systems integrator. We employ only full time employees on our projects and retain an outstanding staff, consisting of business-oriented consultants with strong technical and functional expertise.

“AST has demonstrated the ability to step into difficult situations and deliver timely solutions. Each of the resources you have provided has performed their tasks with obvious skill that many firms promise but few deliver.” — City of Chicago

“Through your team, we were able to accomplish everything we set out to achieve. Thank you for being the kind of corporation the City can recommend for future consulting jobs.”

The industries we serve are as diverse and dynamic as the projects we execute, where we assist clients in capitalizing on the opportunities derived from a project’s challenges.

- ◆ Airports & Aviation
- ◆ Education
- ◆ Energy Research & Development
- ◆ Financial Services
- ◆ Insurance Services
- ◆ Manufacturing
- ◆ Mass Transit
- ◆ Municipal Government
- ◆ Not-For-Profit
- ◆ Utilities

We bring verifiable experience to every project and specialized project management tools, such as project-proven methodologies, industry best practices, workarounds and business process changes to minimize customizations. And a project is never complete without effective knowledge transfer, training and post-project support, provided by AST, to ensure that your organization will realize the full benefits from your investment in Oracle Applications.

Clients on AST

"I am very pleased to have had such a partner to work with, and a group of consultants that are professional and knowledgeable about all aspects of Oracle. It is clear that AST's top reputation for bringing Oracle solutions to customers in the transit industry is well deserved." — Greater Cleveland Regional Transit Authority, OH

"Waukesha County is extremely pleased to have such a partner to work with, a group of individuals that are professional, diligent, and competent about all aspects of the application and database. I know I can count on AST to deliver a quality product in a professional manner." — Waukesha County, WI

"The knowledge of your staff in understanding the challenges and concerns of local government was evident from the very beginning and helped us improve the business processes during the course of the implementation project." — City of Burbank, CA

"Your willingness to help and go that extra mile significantly assisted our upgrade process and the transition into the Oracle system. It could not have been done without your assistance, delightful efforts and enthusiasm put forth by all to accomplish the tasks asked of you." — Oklahoma County, OK

"We were able to come in on time and within budget. This could not have been done without the efforts of AST dedicating many long nights and weekends to accomplish this task. AST was available to our staff at any time to assist us in integrating Oracle into our business practices." — Polk County, FL
