**DATE: July 5, 2005**

**HEADLINE: DFW International Airport, Texas, selects AST Corporation to provide Oracle E-Business Suite professional services.**

Naperville, IL – Capitalizing on AST’s in depth Oracle Applications airport experience, DFW International Airport has awarded AST Corporation, one of three contracts to provide design, implementation, enhancement and upgrade professional services for its Oracle E-Business Suite of ERP applications.

DFW International Airport, the world’s third busiest, providing nearly 2,000 flights per day and serving 57 million passengers each year, runs a highly efficient and dynamic business operation. In utilizing Oracle Corporation’s E-Business Suite software applications to automate and streamline financial, accounting, purchasing and inventory business processes, maintaining and keeping these applications up-to-date is vital. In partnering, AST Corporation’s consultants will assist DFW International’s skilled technology staff in meeting the demands placed by growing numbers of passengers and their increasing service needs.

AST Corporation an Oracle Certified Advantage Partner, will join with DFW International on all aspects of the Oracle E-Business Suite implementation of G/L, AP, AR, iProcurement, Inventory and Projects. Services provided may include: requirements analysis, design & development, module implementation and upgrades, legacy system integration, security requirements, performance tuning and user training. These services will help the Airport retain timely access to needed business information for financial analysis, reporting and decision making to serve its broad base of passengers, airline partners, governmental agencies and service vendors.

#### **About AST Corporation**

Established in 1995, Applications Software Technology (AST) Corporation, is an Oracle Certified Advantage Partner, an Oracle University training and delivery partner, and a certified Oracle On-Demand implementation provider. AST offers professional consulting services to Oracle Applications users and serves industry-leading organizations in manufacturing, transportation, insurance, retailing, telecommunications and the public sector. Clients look to AST Corporation for assistance in business process redesign, project management, systems integration, systems administration and training.
