DATE: August 7, 2007

HEADLINE: AST awarded California Multiple Award Schedule (CMAS) for Information Ethnology Services.

Naperville, IL – Applications Software Technology, a Certified Advantage Partner in the Oracle Partner Network, has been awarded a California Multiple Award Schedule (CMAS) contract by the State of California Department of General Services (DGS). Under contract number **3-07-70-2445RA** for the period August 7, 2007 through March 31, 2011, AST is qualified to provide professional IT services and training in the following categories:

- Application Development
- Database Design
- E-Commerce
- IT Process Re-Engineering
- IT Project Planning
- IT System Implementation
- IT System Analysis
- IT System Design
- IT System Development
- IT System Integration
- Migration Planning
- Training Development

The CMAS contract is based on the services and prices listed in AST's Federal [GSA contract GS-35F-0921R](#). The CMAS award is subject to the same strict criteria for past project performance, staff experience, client references and competitive pricing of staff and services. With AST thus qualified, State of California agencies can directly procure services from AST.

AST holds an MSA (Master Services Agreement) for IT Services in the State of California. The awarded CMAS contract testifies to the quality and cost effectiveness of AST's services to clients in the State of California, and further confirms AST's status as a nationwide preferred vendor of Oracle consulting services.

About AST Corporation

Established in 1995, Applications Software Technology (AST) Corporation is an Oracle Certified Advantage Partner, an Oracle University training and delivery partner, and a certified Oracle On-Demand implementation provider. AST offers professional consulting services to Oracle Applications users and serves industry-leading organizations in manufacturing, transportation, insurance, retailing, telecommunications and the public sector. Clients look to AST Corporation for assistance in business process redesign, project management, systems integration, systems administration and training.
