**HEADLINE: AST leads testing and evaluation of Oracle Loans implementation for Overseas Private Investment Corporation (OPIC)**

Naperville, IL – As part of the OCIO Application Integration and Modernization (AIM) program at OPIC, AST Corporation is leading the testing and evaluation component of OPIC’s implementation of Oracle Loans. Selected to staff OPIC’s quality assurance and test team, AST has developed a testing and evaluation master plan and strategy. The plan will augment OPIC’s end-to-end test scenarios to demonstrate the processing of loans at OPIC.

Oracle Loans is a key component of OPIC’s AIM program. AST’s assistance in the delivery of the Oracle Loans system will lay the groundwork for integrating loan origination and enterprise business reporting into an end-to-end loan processing system, which is aligned with OPIC’s AIM program vision.

---

**About AST Corporation**

Established in 1995, AST Corporation is an Oracle Certified Advantage Partner, an Oracle University training and delivery partner, and a certified Oracle On-Demand implementation provider. AST offers professional consulting services to Oracle Applications users and serves industry-leading organizations in manufacturing, transportation, insurance, retailing, telecommunications and the public sector. Clients look to AST Corporation for assistance in business process redesign, project management, systems integration, systems administration and training.

**About OPIC**

The Overseas Private Investment Corporation (OPIC) was established as an agency of the U.S. government in 1971. OPIC helps U.S. businesses invest overseas, fosters economic development in new and emerging markets, complements the private sector in managing risks associated with foreign direct investment, and supports U.S. foreign policy. Mobilizing the U.S. private sector to advance U.S. foreign policy and development initiatives, OPIC-supported projects make a difference by expanding economic development, which can encourage political stability and free market reforms. Currently, OPIC services are available for new and expanding business enterprises in more than 150 countries worldwide.
