AST to Facilitate Learning Opportunities at Oracle's Collaborate 11

Naperville, IL. April 4th, 2011: Application Software Technology Corporation will serve as a key presenter at Oracle's Collaborate 11. AST's team of Oracle experts will share their real-world experience and Oracle knowledge in E-Business, Score Card reporting, OBIEE integration and Cloud Computing during the five day training forum April 10th – 14th in Orlando, Florida.

The Independent Oracle Users Group (IOUG), the Oracle Applications Users Group (OAUG) and Quest International Users Group (Quest) annually host COLLABORATE, which brings thousands of Oracle technology and applications professionals to one venue for Oracle education, customer exchange and networking. The event offers an opportunity to allow professionals with similar business needs and Oracle experts to meet and share solutions on a full range of topics including Application Strategy and Services, BI/Data Warehousing/EPM, Database, Development, Governance Risk and Compliance, Infrastructure Technologies, and Master Data Management (MDM).

Check the Oracle Session's Agenda Builder for dates and times of the following AST presentations:

- Best Practices for Aligning Strategy and Execution using Balanced Scorecards in Municipal Governments
- Overcoming the Challenges of Implementing Oracle HRMS at Local Governments
- Configuration of Complex Rules in Oracle E-Business Tax R-12
- Oracle Apps and Cloud Computing – Future Direction
- Oracle Data Integrator (ODI) integration with OBIEE

To learn more about AST and our comprehensive Oracle E-Business Suite, BI/Data Warehouse, Service Oriented Architecture (SOA) and Managed Services practices, stop by our booth (1110) in the main exhibitor's hall or attend any of our five presentations.
