College of American Pathologists selects AST Corporation for Enterprise Security Implementation using Oracle Identity and Access Management Suite

Naperville, IL February 15, 2012: The College of American Pathologists (CAP), the leading organization of board-certified pathologists worldwide, has awarded a multi-phased contract to AST Corporation to implement the Oracle Identity and Access Management Suite of products for CAP's enterprise security implementations. The project includes directory service consolidation, user provisioning, access management and fine-grained security implementation using Oracle Entitlement Server, and integrates with more than twenty CAP systems.

The project will be executed by AST's middleware practice which is focused on implementing Oracle Middleware Technology based on IAM, ECM and SOA solutions. In awarding the contract, CAP recognized AST as a partner that would conduct the project to achieve maximum outcome with minimum risk. For past SOA integration solution projects, AST received the Oracle PartnerNetwork North American Titan Award for Integration and SOA Solutions at Oracle OpenWorld 2011.

About The College of American Pathologists

The College of American Pathologists (CAP) is a medical society serving more than 17,000 physician members and the global laboratory community. CAP is the world's largest association composed exclusively of board-certified pathologists and is the worldwide leader in laboratory quality assurance. CAP is the leading organization of board-certified pathologists, serving patients, pathologists, and the public by fostering and advocating excellence in the practice of pathology and laboratory medicine worldwide. More than 7,000 laboratories are accredited by the CAP, and approximately 23,000 laboratories are enrolled in the College's proficiency testing programs.

About Oracle Corporation

Oracle is the largest business software company in the world, with more than 320,000 customers, including 100 of the Fortune Global 100. All 15 of the U.S. federal cabinet-level agencies run Oracle Applications and use Oracle Identity Management Suite for security and identity

provisioning. Over 100 U.S. federal government agencies run Oracle Applications. Thirty-eight U.S. states run Oracle applications, 21 of them statewide.

In a 2011 Gartner Magic Quadrant for Identity and Access Governance, Oracle Identity Management solutions were positioned in the Leaders quadrants.

About AST Corporation
