Three Oracle Specializations Achieved by AST Corporation

Naperville, IL September 9, 2013 – Following closely on the heels of recent contract awards and project completions for Oracle E-Business Suite, Business Intelligence and Fusion Middleware, AST Corporation – an Oracle PartnerNetwork (OPN) Platinum Partner – announced today it has received Oracle Specializations for Application Development Framework 11g, Hyperion Planning 11 and Database 11g.

To achieve OPN Specialized status, Oracle partners are required to meet a stringent set of requirements that are based on the needs and priorities of the customer and partner community. Oracle Specialization recognizes select Oracle partners with certified professionals who have demonstrated success in effectively implementing solutions using Oracle Applications and Technologies. By achieving these three OPN Specialized distinctions, AST has been recognized by Oracle for its expertise in delivering services specifically around these applications and technologies through competency development, business results and proven success.

“We are very proud to have achieved these specializations,” said Jennifer Ryerson, Vice President, Business Development at AST. “They represent the results of our continuing, strategic investment in our Fusion Middleware, Hyperion and E-Business Suite practice areas. Achieving these designations demonstrates both our depth of knowledge and our client satisfaction in these specialization areas.”

AST has additional Oracle PartnerNetwork Specializations in: E-Business Suite Financial Management; E-Business Suite Human Capital Management; E-Business Suite Supply Chain Management; Business Intelligence Applications; Business Intelligence Foundation; Public Sector Industry; Service Oriented Architecture (SOA).

About Oracle PartnerNetwork

Oracle PartnerNetwork (OPN) Specialized is the latest version of Oracle's partner program that provides partners with tools to better develop, sell and implement Oracle solutions. OPN Specialized offers resources to train and support specialized knowledge of Oracle products and solutions and has evolved to recognize Oracle's growing product portfolio, partner base and business opportunity. Key to the latest enhancements to OPN is the ability for partners to differentiate through Specializations. Specializations are achieved through competency development, business results, expertise and proven success. To find out more visit <http://www.oracle.com/partners>.
