Emerging Technologies, Innovative Solutions and Oracle Best Practices Dominate AST Presentations at Collaborate14

AST presentations span the entire conference with a total of 18 sessions

Naperville, IL February 7, 2014: AST Corporation will continue to demonstrate its insights and leadership as a specialized, recognized and preferred Oracle systems integrator before thousands of Oracle Applications users and three of Oracle's biggest and most influential users groups. In developing and implementing the latest Oracle applications and technologies for its customers over the past year, AST is ready to share its expertise and practical knowledge of the best solutions for the functional, technical and training needs facing organizations looking to get the most out of their investment in Oracle.

At the upcoming Collaborate14, AST team members will deliver 18 presentations on a wide breadth of topics, from best practices in ERP and WebCenter implementations to highly technical sessions that focus on integrating Oracle Identity Management within E-Business Suite. With additional sessions focusing on multi-cultural aspects of organizational change management and even how to submit successful conference papers, these topics and more will be scheduled throughout the five-day event:

- The ABC's of Assessments – What you Need to Know
- Changing Perceptions about Change Management—Convincing Management You Need a Formal Change Program
- Fundamental Administration and Management Concepts for WebLogic Server
- Streamline Human Capital Planning process with Hyperion Public Sector Planning & Budgeting
- Moving Oracle Fusion Middleware from Test to Production
- WebLogic Server System Administration – Top Ten Fundamental Concepts
- E-Business Suite - Oracle SOA Suite Integration Options Fundamentals
- Escargot, Burgers and Sushi: Differing Palates and Change Approaches to Consider in Asia, Europe
- Oracle Identity Management Integration with E-Business Suite and Middleware Technologies
- Secure Documents and Emails Inside and Outside Organizations' Networks Using Oracle Information Rights Management
- Shake Off The eBusiness Suite Attachment Blues - Automatically Convert EBS Attachments to WebCenter
- Oracle Endeca Information Discovery – OEID... as easy as 1-2-3!
- Penalty Calculation in Receivables R12
- Seven Success Factors for ERP Systems Implementations in Public Sector
- Submitting Successful Conference Papers
- Oracle Service Bus: - When to Use, Where to Use and When Not to Use
- A Single Ledger Approach to GASB34 Compliant Asset Processing
- E-Business Suite Single Sign On using Oracle Access Manager

Collaborate14 is the upcoming technology and applications forum for the Oracle community. It will take place April 7-11 at The Venetian and The Sands Expo Center in Las Vegas, Nevada. For more information visit <http://collaborate.oaug.org/>

AST Corporation is a Platinum level member of Oracle PartnerNetwork.

About Collaborate14

The Independent Oracle Users Group (IOUG), the Oracle Applications Users Group (OAUG) and Quest International Users Group (Quest), present COLLABORATE 14: Technology and Applications Forum for the Oracle Community. As an educational conference, COLLABORATE 14 helps users of the full family of Oracle business applications and database software gain greater value from their Oracle investments. Created by and for customers, COLLABORATE 14 offers an expert blend of customer-to-customer interaction and insights from technology visionaries and Oracle strategists. Expand your network of contacts by interacting with Oracle customers, solutions providers, consultants, developers and representatives from Oracle Corporation at COLLABORATE 14.
