AST Providing Support to Northeast Ohio Regional Sewer District for Multiple Oracle Installations

Naperville, IL May 30, 2014: The Northeast Ohio Regional Sewer District (NEORS) Information Technology Infrastructure includes multiple Oracle environments, and AST Corporation has been a preferred partner of NEORS since 2011 for many successful projects for the District, including: Assessment and implementation of iRecruitment and Self Service Human Resources; Oracle Advanced Benefits enhancements; E-Business Suite R12 upgrade and iProcurement implementation. Most recently AST helped the District design, plan and build integrations for their supply chain transactions between Oracle E-Business Suite and Oracle Utilities Work and Asset Management.

With this unique insight into the District's business processes and IT environments, AST is now providing functional and technical Managed Services for the District. To meet the expectation of uninterrupted performance of its E-Business Suite, AST will provide a dedicated and proven managed services group, with a successful track record of meeting expectations and will help the District get the most from their investment in Oracle.

Supported Oracle Applications for the District include: Oracle E-Business Suite (General Ledger, Payables, Receivables, Cash Management, Purchasing, Inventory, Advanced Procurement) Oracle Utilities Work and Asset Management (WAM), Oracle Discoverer, and Oracle Service-Oriented Architecture (SOA).

AST Corporation is a Platinum level member of Oracle PartnerNetwork.
