Clark County Water Reclamation District Contracts with AST for Managed Services

Naperville, IL June 20, 2014: In December 2013, AST Corporation was awarded by Clark County Water Reclamation District (CCWRD) a contract to upgrade the District's Oracle E-Business Suite applications from version 11.5.10.2 to 12.1.3. Following the success of that project, AST was again contracted by the District to supply Managed Services in support of their new E-Business Suite modules.

AST is providing DBA and application support for the District, as well as managing new project and enhancement requests. The Enterprise Applications Support Method (EASM) is a managed services methodology developed and proven by AST, and is being employed at the District to provide structure and maintain and measure E-Business Suite system performance.

The following modules were included as part of the Oracle EBS R12 upgrade project, and are supported by AST: General Ledger, Accounts Payable, Human Resources, Self Service HR, Accounts Receivable, Payroll, Project Accounting, Cash Management, Purchasing, iProcurement, Fixed Assets.

About Clark County Water Reclamation District

Every day, more than 170 million gallons of used water and sewage from thousands of local homes, hotels, schools, churches and businesses make their way to one of three treatment facilities which are located in Clark County, Henderson, and Las Vegas. The "Clean Water Team" is responsible for the largest of those treatment facilities. The job of everyone at CCWRD is to treat, disinfect and reclaim our share of this massive amount of wastewater -- 95 million gallons per day -- and make it clean again so we can safely return it to the environment.

About AST Corporation

Established in 1995, AST Corporation is a Platinum level member of Oracle PartnerNetwork (OPN), Specialized Oracle Applications and Technologies systems integrator, an Oracle University training and delivery partner, and a certified Oracle Cloud Services implementation provider.
