Onvia Recognizes AST Corporation as a Top ERP Vendor

Naperville, IL July 14, 2014: In their recent publication, “Market Analysis: ERP Procurement in Federal, State and Local Government”, Onvia ranked AST among the top ten ERP vendors based on total awards by various agencies.

Onvia’s goal with the publication was to “examine ERP project data for the past three years with the goal of understanding trends in vendors, award volume and size, importance of implementation vs. consulting services, procurement differences by agency level and the size and impact of project uncertainty.” In determining the top ten ERP vendors, Onvia “examined our database of publicly available ERP awards reported by state and local as well as federal government agencies and identified vendors who were selling directly to this market.”

AST is ranked along with major ERP software makers, solution providers, Value Added Resellers and software firms.

About Onvia

Onvia specializes in providing business intelligence solutions to vendors to grow their government business, helping them get ahead of the bid and RFP process. Onvia helps clients strategically grow their government business with solutions for project intelligence, agency intelligence and vendor intelligence in the public sector.
