County Sanitation Districts of Los Angeles County Select AST to Replace Financials, Budgeting and HR Systems

Naperville, IL, October 22, 2014: After a competitive bidding process, the County Sanitation Districts of Los Angeles County (LACSD) of California have awarded AST Corporation with a contract to provide implementation, integration, training and support services for the delivery of a comprehensive ERP solution including Financials, Budgeting and Human Resources.

As the foundation for their ERP system, LACSD selected Oracle E-Business Suite, as well as Oracle Hyperion Planning products and Oracle User Productivity Kit. These products comprise a system that spans business functionality to include financial accounting and reporting, project accounting, human resources, payroll, procurement, and operations within LACSD. In addition, AST will integrate the new ERP system with LACSD's existing Work Order and Asset Management (WAM) system. The entire system will provide LACSD with greater business efficiencies, cost savings, and the ability to leverage this investment well into its future as their needs grow and evolve.

AST Corporation was selected by LACSD, in part, due to its depth of experience with wastewater treatment and utility clients, and implementing their distinct requirements to form an ERP system suitable for this unique environment.

AST Corporation is a Platinum level member of the Oracle PartnerNetwork.

About the County Sanitation Districts of Los Angeles County

The Sanitation Districts are a confederation of 23 individual special districts serving the wastewater and solid waste management needs of over five million people in 78 cities and unincorporated areas of Los Angeles County. The Sanitation Districts own and operate eleven wastewater treatment facilities (WRPs) with a combined capacity of approximately 625 million gallons per day. The Sanitation Districts also operate an integrated system of solid waste management facilities, including three active landfills, two refuse-to-energy facilities, three transfer/materials recovery facilities, two buy-back recycling centers, and three energy recovery facilities.

About Oracle PartnerNetwork

Oracle PartnerNetwork (OPN) Specialized is the latest version of Oracle's partner program that provides partners with tools to better develop, sell and implement Oracle solutions. OPN Specialized offers resources to train and support specialized knowledge of Oracle products and solutions and has evolved to recognize Oracle's growing product portfolio, partner base and business opportunity. Key to the latest enhancements to OPN is the ability for partners to differentiate through Specializations. Specializations are achieved through competency development, business results, expertise and proven success. To find out more visit <http://www.oracle.com/partners>.
