AST Attains Five New Reseller Credentials

Naperville, IL May 18, 2015: AST Corporation, an Oracle Platinum Partner and three-time recipient of the prestigious Oracle Excellence Award, today announced the attainment of five new Oracle Reseller Agreements which enable AST Corporation to better-support the needs of our customers. These new reseller credentials support our continued focus on Oracle Cloud solutions.

Oracle Financials: Oracle Fusion Financials Solutions Reseller – Oracle Financials Cloud Service offers an integrated SaaS financial management suite that is designed to automate, streamline, and control an organization’s financial management processes end to end. AST Corporation is empowering modern finance for our customers with Oracle Financials Cloud.

Oracle RightNow CX Cloud Service Reseller – Oracle RightNow CX Cloud Service delivers exceptional customer experiences (CX) across the web, social networks and contact centers, via the cloud. AST Corporation focuses on RightNow CX to drive customer satisfaction with highly configured and customized experiences for you and your end customers.

Oracle Database Cloud Service Reseller - Oracle Database Cloud Service provides a cloud based option for database deployment and can help simplify and accelerate development of applications on the world’s #1 enterprise database. AST Corporation can help organizations understand if Database Cloud Service is right for them.

Oracle Documents Cloud Service Reseller - Oracle Documents Cloud Service provides secure document sharing across devices and outside the organization. When used with Oracle WebCenter and BPM, Documents Cloud Service offers organizations a rich content platform for hybrid ECM that extends business applications and processes with secure content sharing.

Oracle Business Intelligence Cloud Service Reseller - Oracle Business Intelligence Cloud Service is the industry's first BI platform in the cloud that makes analytics available to everyone, from the workgroup to the enterprise. BI Cloud Service empowers users of any skill level, from any department, to easily combine data from diverse sources and quickly create rich, interactive analytic applications and reports.
