AST to Partner with Electric Power Board of Chattanooga to Enhance Security with Oracle Security Suite

Naperville, IL July 31, 2017: The Electric Power Board (EPB) of Chattanooga has signed a deal with Applications Software Technology LLC to implement Oracle Cloud Security Broker (CASB) and Oracle Identity Cloud Service (IDCS) to enhance its security systems.

AST was selected against prominent competitors to perform the implementation. Once completed, the project will be a pioneer for Oracle CASB implementations, the first of its kind to be performed by any systems integrator, as well as the first Oracle CASB implementation in the Public Sector.

Oracle IDCS is a comprehensive cloud-based security and identity management platform built for modern applications. It maintains a single identity for each user across on-premise and cloud applications. Oracle CASB uses automated security monitoring to provide advanced threat analytics, securing an organization's entire cloud footprint.

The project will kick off in early August 2017.

About EPB of Chattanooga

The Electric Power Board of Chattanooga is an electric power distribution and telecommunications company owned by the City of Chattanooga, TN. It was a pioneer in the United States as the first company to offer 1BG/s high-speed internet; by 2015, Chattanooga implemented the world's first community-wide 10 GB/s service available to all homes and businesses in its service area.

EPB remains one of the largest publicly owned electric power distributors in the county, serving more than 170,000 homes and businesses.

About Applications Software Technology (AST) LLC

Established in 1995, AST is a Platinum level member of Oracle PartnerNetwork (OPN), and Oracle Cloud Premier Partner. AST's services encompass all aspects of Oracle Cloud Applications, Business Intelligence, Enterprise Performance Management and Middleware implementations. AST offers flexible Managed Services and comprehensive Oracle University courses customized to the needs of our Public Sector and Commercial customers.
