AST LLC Becomes OneStream Software Implementation Partner

Lisle, IL June 19, 2020: OneStream Software today announced a strategic partnership with Applications Software Technology (AST) LLC to transform Corporate Performance Management (CPM) processes for sophisticated organizations around the globe. This new partnership will provide industry-leading software and implementation expertise while driving efficiencies in Finance.

OneStream provides a unified, SmartCPM™ platform that simplifies and aligns financial consolidation, planning, reporting, analytics, and financial data quality. OneStream eliminates the risk and complexity of data integration, validation, and reconciliation between multiple products, applications or modules, and makes non-integrated CPM suites a thing of the past.

“As a OneStream partner, AST is excited to provide our clients with a premier, consolidated CPM solution,” said Justin Winter, Chief Executive Officer at AST. “With over 25 years of deep experience in delivering financial solutions to organizations in the public and private sectors, our OneStream partnership will strengthen our ability to provide streamlined financial solutions to our clients in a rapidly evolving and complex business and technology landscape.”

“We are thrilled to announce our partnership with AST and extend our presence around the globe,” said Stephanie Cramp, Vice President of Global Alliances at OneStream Software. “We truly believe our shared customers will benefit from this partnership and our mission to deliver one hundred percent customer success. As the needs of our customers are evolving on a global scale, together we will provide a SmartCPM solution that eliminates inefficiencies and is easier to use, own, and maintain.”

AST’s strategic partnerships allow the organization to provide fast innovation and cohesive business solutions to clients around the globe. Providing expert implementation services backed by decades of experience, AST’s team provides business solutions that connect people, apps, data, and processes to ensure a streamlined approach to achieving business objectives.
